Q3 2026 Engineering Report

Platform team quarterly summary

Michal Stojke · 2026-11-06

Executive Summary

The platform team shipped **14 features** this quarter while reducing infrastructure spend by **18%**. Details below; raw dashboards are available here.

> *Best quarter for platform reliability since 2024.*

Key Metrics

Metric	Q2	Q3	Change
Uptime	99.92%	99.98%	+0.06 pp
p95 latency	410 ms	290 ms	-29%
Monthly cost	$48k	$39k	-18%

Table 1: *Quarter-over-quarter platform metrics*

Highlights

- **New deploy pipeline** — rollouts now take 4 minutes
- Migrated the job queue to `redis-streams`
  - Zero-downtime cutover
  - Old queue decommissioned
- *Docs overhaul* for internal APIs

Deploy pipeline

The new pipeline is configured with a single manifest:

```
pipeline:
  stages: [build, test, canary, rollout]
  canary_traffic: "5%"
```
